Mastering Course Set Up

Step 2:

New Users: If this is your first Mastering(Discipline) you will be prompted to select a text, then proceed to Step 3 .

Existing Users: After signing in you will navigate to your Course Home Page, select My Courses, then proceed to Step 4.

Step 3:

New Users:
Select Create a Course

Step 4:

New Users :
Select Create a New Course.

Existing Users :

To create a course for a new/different program, select Create a New Course.
If you wish to use a course you've previously created, for a new class, select Copy One of My Courses. You will see a list of your courses to choose from. All assignments you created for the course will transfer.

Mastering Course Set Up

Step 5:

New Users: Complete the information requested.

Existing Users: If you copied a course, update Information as needed. Be sure to set the Course End Date.

MasteringBiology®

Copy Course: BIOLOGY SECTION 1

1 Basic Information 2 Student ID Settings 3 Access Settings

Course Title:
This is the name of the course that students will see on your [Course Home Page](#).
BIOLOGY SECTION 2

Textbook:
Choose the edition of your textbook that your students will use. (Contact Support if you need to change the textbook edition after the course is created.)
Reece et al., Campbell Biology – AP Edition (High School), 9e

Country:
United States

Time Zone:
New York (UTC-04:00)

Course End Date (Last Day of Term):
This is the end date of the course. Students will not be able to access the course assignments after this date.
09/27/2015

Step 6:

Read this section carefully. If you select No, continue with your course setup. If you select Yes, an additional step will be required before completing your course set up.

Create your First Course

1 Basic Information 2 Student ID Settings 3 Access Settings

Do you plan to combine MasteringBiology grades with grades in other systems?
If so, Student IDs are an important part of this process. You can easily import these into MasteringBiology from a spreadsheet, or you can have students enter this data themselves.

Would you like MasteringBiology to prompt your students to enter their IDs? (You can change this preference later.)

Yes, prompt my students for their IDs, and let me customize the prompt.

No, I do not want students to enter in their IDs.

Mastering Course Set Up

Step 7:

You will be assigned a Course ID or you can create your own (see note below Course ID box for instructions).

Your students will need your Course ID during registration to join your online class.

IMPORTANT: You will not be able to change your textbook or Course ID after this step.

MasteringBiology®

Create your First Course

1 Basic Information — 2 Student ID Settings — 3 Access Settings

Set up a unique Course ID to give to your students so they can enroll in this course or to other instructors so they can copy this course.

Course ID:
MBUSER54773
Must begin with a letter, be between 6-32 characters, letters & numbers only.
Note: Upon clicking Create Course, the Course ID cannot be changed. [Learn more about Course IDs.](#)

Determine whether students can join your course:

- Open (Students can join your course immediately.)
- Closed (Students cannot join your course until you open it.)

Determine whether other instructors can copy your course:

- Available for copying
- Unavailable for copying

[< Back](#) Create Course

You have successfully set up your Mastering course!

Step 8:

Select Continue to Course home.

MasteringBiology® Signed in as joan.dittmar, Instructor

Your new course, **BIOLOGY SECTION 1** (Course ID *MBDITTMER39659*) was created successfully!

Now you can add assignments to this course. When you are ready, give your students the Course ID MBDITTMER39659 so they can join (enroll in) the course to complete assignments.
